Author Index 1- 16

Subject Index 17-140

F O R E W O R D

This index to volume 2 of the Housing Index-Digest covers the period Sept.15, 1938 to Aug. 1, 1939, inclusive.

It is divided into two parts, the first part an author index, the second a subject index, including geographical entries.

The index has been produced by the Sub-Committee on Bibliography of the Central Housing Committee on Economics and Statistics.

The Committee, which is composed of research principals from housing and other agencies, assembles and evaluates economic housing data, recommends or supervises surveys and studies, and exchanges opinions and results obtained from separate investigations.

The Sub-Committee, active auxiliary of Economics and Statistics, is composed of representatives of agencies having special or incidental housing and city planning interests. Its semi-monthly publication, the HOUSING INDEX-DIGEST now features the following alternating special issue series: General housing literature; City research data; and special subject numbers such as foreign housing statistics. These special series carry a continuing series number from the origin of each series in Vol. 2.

ACKNOWLEDGMENT

The Sub-Committee on Bibliography is indebted to Miss Florence S. Hollman, Division of Bibliography of the Library of Congress, for the compilation of this index to volume 2 of the Housing Index-Digest. Those who have knowledge of Miss Hollman's well-filled hours at her office are doubly appreciative of her interest and generosity in giving time to the preparation of this index.
