
Tenants in LIHTC Units as of December 31, 2021

Vacancy Rate	
Vacant Units Reported	98,310
Total Units Reported	2,138,845
Vacancy Rate	4.60%

Note: This calculation differs from HUD's previously reported LIHTC vacancy rates. Previously, the denominator (Total Units Reported) included all units, even if a state did not report any vacant units. This artificially reduced the calculated vacancy rate. The above 'Total Units Reported' excludes states that did not report any vacant units. Those states are: Florida, Georgia, Iowa, Mississippi, Montana, North Dakota, Nebraska, South Carolina, and Utah. These states reported 305,402 units. Including these states would reduce the vacancy rate to 4.00%

HERA = Housing and Economic Recovery Act. LIHTC = low-income housing tax credit. PIS = LIHTC properties placed in service database.

Note: American Samoa placed 119 properties in service using the Tax Credit Exchange Program (TCAP), but otherwise does not actively administer LIHTCs and therefore is exempt from HERA requirements.

¹ The 2020 data are identical to those reported in Data on Tenants in LIHTC Units as of December 31, 2020, and do not include information on properties placed in service prior to 2020 that was reported with the 2021 PIS data collection.
