Installation Instructions

Step	Instructions
1	Save the zipped instrument.
2	Create a new folder on the C-Drive entitled ahs07_vhud (or the name of your choice).
3	Extract the files from the zipped instrument to the C:\ahs_vhud folder . Before pressing the “Extract” radio button, mark (X) in the Overwrite Existing Files and User Folder Names boxes.
4	Create a short cut from the AHS.EXE file and copy it to your Desktop.
5	Open the instrument and from the SELECT THE CASE ID box, highlight the case you want to test, and press OK . You have 32 cases with which to work. When all have been completed, reinstall the instrument and start over.
